

RIT Assignment

Describe your size-up as a RIT for these 2 incidents.

What tools are necessary for RIT Operations at the above incidents?

What are the primary tasks assigned to the RIT at these incidents?

Where are the primary access points at these incidents?

What secondary activities can be done after completion of your primary assignments?

Officer Activities with Crews:

- Discuss and demonstrate the techniques necessary for removal of a firefighter trapped on the second floor of the town-home fire.
- Complete a size-up of similar structures to the above scenarios in your district.
- Develop a rescue plan for an incident where a team of firefighters falls through the roof of the commercial fire in the photo above.
- Develop a rescue plan for a firefighter who is lost inside the building and is reporting low on air.

Review the following procedures:

- *Emergency Evacuation Signal
- *PAR Reporting
- *Accountability Benchmarks
