

Thermal Imaging Cameras

REVIEW OPERATING INSTRUCTIONS FOR THERMAL IMAGING CAMERAS.

- How can you tell the difference between hot and cold objects?
- What other applications can TIC's be used for other than search and rescue?
- During operations, which crew member uses the camera?
- Discuss how you maintain orientation within the structure while using TIC's in the event of camera failure

Practical Exercise

- Company should practice using camera during today's shift.
- Review changing batteries and other maintenance activities
